

VOLUNTEER PROJECT IN BRAZIL

Place and date

This info letter tells about the LLL VP that will take place in São Paulo, Brazil. The arrival day of the YE is the 28th of October 2012 and the departure date the 04th of November. Please arrive on the 28th. We need to know your arrival time to organize groups for the transport logistic.

Description of the LLL Volunteer Project in Brazil

The VP main activities consist in:

- During the first day we will get to know each other and the host ORPAS. We also are going to plan the activities for the next days. And in the afternoon we will have the first meeting with the youth of a school in Capão Redondo.
- During 3 days we will develop the VP Action Project through the *Alley Restoration Project* which involves outdoor activities and aims to introduce people to the community and leave a positive impact.
- Each day we will meet different communities to develop workshops and activities to interchange ideas and experiences.

The program will be in the format of non-formal education, which gives space for the participants to be actively involved. Taking part in the program during the days is obligatory and participation in the evening program is optional, though we hope everybody wants to join. There are some free time each day and a complete day free.

Language

The VP will be in Portuguese and translation to English and Spanish will be available during the program. In practice the translation will be often done among the participants themselves.

It is advisable for non-Portuguese speakers to learn some Portuguese in advance, as well for non-English speakers to learn some English, at least some common phrases in order to facilitate the interaction and understanding. As the Latin languages are related, can Spanish and Italian be used in communication instead of Portuguese, but for the information and presentation, please use Portuguese or Spanish, or let someone do translation.

Accommodation

Participants will be accommodated in one of the headquarters of ORPAS in the south zone of São Paulo. The location will have a kitchen space available to be used by the participants. You must bring sleeping bag, pillow and your personal hygiene kit.

What to bring

- **Clothes**

By this time of the year São Paulo is getting warmer, the temperature will be around 28°C, but the weather in São Paulo is very variable so it always could get cold, especially at night. Therefore, you may bring summer clothes but also a jacket. You may also bring swim suit, as you will have a day off and you could use it to visit one of the nearby beaches.

As some activities of the program will be held in different locations you should bring comfortable shoes and clothes for indoors sessions, and practical clothes to work outside, considering the weather. In addition, for the activity *Alley Restoration* you should consider that the clothes might get dirty.

Suitable clothes for going out in the city at night.

- **Souvenirs**

For this instance It would good that you could come with some traditional ingredients or food from your country, as there is going to be an space to share food from different countries. Also, you could add some interesting material, or film.

Finally, some souvenirs to share with people from the community would be very appreciated by local people.
